

InfrasoftTech has been awarded a place on RM1043iv Digital Outcomes and Specialists framework of Crown Commercial Services UK

UK, March 1, 2017 – Infrasoft Technologies Pvt. Ltd. is proud to announce the win in two Lots of the new Crown Commercial Service’s (CCS) Digital Outcomes & Specialists framework RM1043iv. The framework will serve as a compliant route for the UK public sector including central and local government, social housing associations, educational institutes and the NHS.

InfrasoftTech has been listed as a supplier in Lot 1 (digital outcomes) and Lot 2 (digital specialists). As such we are able to supply capabilities in the following areas:

Digital Outcomes

Security	Infrastructure review Risk management Security policy
Service delivery	Agile delivery Business analysis Digital communication and engagement Product management Program management Project management Service management
Software development	Cloud-based service development Customer relationship management Database development Desktop application development Systems integration Web application development

Digital Specialists

We are also able to provide specialist support in the following roles: Cyber Security Consultant, Delivery Manager, Developer, Portfolio Manager, Programme Manager, Service Manager and Technical Architect.

Buying services through these frameworks is faster and cheaper than entering into individual procurement contracts.

All public sector organizations, including agencies and arm's length bodies, can use the Digital Marketplace.
